

## Marchwood, Southampton

### Location

Marchwood, Southampton, UK

### Land Use

Commercial and Power Generation Schemes

The principals of Kilbride were involved with the master planning of 140 acres of ex power station site in Southampton. The site master plan was developed for logistics and new heavy industry park uses. Development of the site has taken place over the last 7 to 8 years and has involved direct investment by the Kilbride parent company.

Integra South West (Marchwood) can process 165,000 tonnes of waste per year and supply up to 14MWs of electricity - that's enough for around 14,000 homes.
